

Company Remote Work Policy

This policy applies to all full-time employees who have been approved for remote or hybrid work arrangements by their manager and Human Resources.

Employees working remotely are expected to be available during core collaboration hours, defined as 10:00 AM to 4:00 PM in their assigned office's local timezone, unless otherwise agreed with their manager.

The company will provide a one-time home office stipend of \$500 for approved remote employees to cover equipment such as a monitor, chair, or desk, subject to submission of receipts within 60 days of approval.

All remote employees must use company-issued VPN software when accessing internal systems, and must complete the annual security awareness training within 30 days of their remote work approval.

Remote employees are required to attend in-person team gatherings at least twice per year, with travel expenses covered by the company in accordance with the standard travel policy.

Performance for remote employees is evaluated using the same criteria and review cycle as in-office employees; remote work status has no bearing on promotion or compensation decisions.
